

# Indian Start-Up Funding

Karthik Ranganathan

We can see as the trends have been moving from Mumbai and Delhi towards Bangalore for Startups to set shop. Also the data doesn't explain the reasons behind this shift. But we can infer that due to abundant tech work force which can develop IT systems at cheap and faster pace than other cities, Bangalore might be at an advantage.

**Figure 1:** Number of startups funded in each city considering the top 7

**Figure 2:** Sector wise plotting of startups
